

Pigeon Patrol Bird Exclusion Mesh Netting

- * Black, high density polyethylene.
- * Each 12-ply strand has a 75 lb. knotted breaking strength.
- * Netting is UV, flame and rot resistant.
- * 3/4" square mesh keeps out all but the smallest of birds.
- * Seamless and uniform mesh construction.
- * Steam set knots that won't slip or come loose.
- * Manufactured and tested in compliance with Canada & USA Quality Management Standards.

Netting Thermal, Physical and Chemical Properties:

- * Softening Point: 250 degrees F.
- * Melting Point: 293 degrees F.
- * Flash Point: 660 degrees F.
- * Remains flexible at very low temperatures.
- * Specific gravity: 0.96 – will not absorb water.
- * High density polyethylene is chemically inert and resistant to a wide variety of chemicals at room temperature.
It is acid and alkali resistant and insoluble in most organic solvents at room temperature.
